Description

Rejuvenating Frankincense & vitamin rich Avocado oil act as a natural tonic to stimulate hair growth and calm the skin. They work alongside anti-oxidant packed Argan oil and aromatic Rose oil to breathe new life into dull, flat hair by helping improve texture and giving ageing or colour treated hair a moisture boost. Rose Geranium also acts as a natural hair strengthener.

Bursting with natural ingredients, our long lasting shampoo bars give you up to twice as many washes as a 250ml bottle of liquid shampoo! Plastic free and perfect for travel, festivals, the gym or anyone on the go.

Vegan Friendly

50g.

Smells amazing without being overpowering and really lathers up well. My hair is so incredibly soft and shiny now! Very happy with my purchase.

I love this product, in fact I am on to my fourth bar now and don't use anything else. I have recommended to numerous friends too as I have been so pleasantly surprised with this product. After years of trying to find a good shampoo bar I came across this one. It lasts for ages, is so nourishing. A few times i have used without conditioner and my hair is still really soft and moisturized. It is so worth the money and is lovely to use!

I never thought I would be converted to shampoo bars, but these are great. They foam up really nicely and leave your hair glossy and smelling great.

This is superb. I sometimes use it on my white hair in between the other shampoo I use from Amphora. It really gives great washing qualities and you get lots of foam. The scent is beautiful and after use I leave it in the airing cupboard to dry and then pop it back in the box until next time. It lasts ages. If you are travelling I can't imagine anything better.

I came across this brand in a magazine whilst at the hairdressers about 6 months ago and had fantastic views. I find it hard to find a good shampoo bar without all the rubbish. It doesn't help that my hair is extremely fussy about what I use on it, and with very heavily coloured hair with bright colours I needed something pretty special. I am so impressed with this, it has radically changed my life. I have gone from greasy hair that didnt retain colour pigments very well and washed everyday to washing it twice a week. My hair feels and looks so much more healthier than it did, even my hairdresser has commented on how healthy and shiny my hair is and how well it retains the bright colours.

It's absolutely gorgeous shampoo. It turns into a dense foam the moment you rub it with wet hands, and it goes a long way. Don't get tempted to keep on rubbing - you just don't need that much. It seems to last for ages. Don't leave it in a wet container though - it dissolves quite easily. Make sure it can drain.
