Description

SLS/SLES Free Shampoo Base is perfect for adding your own essential oils to create a bespoke shampoo just for you. You can add essential oils in your mix with the shampoo base. Or you could try pouring a little into a dish for one wash and adding a little of your favourite essential oil. This way you can create a different shampoo for every wash!

This is the best shampoo I have ever used!! I can't believe it's not for sale everywhere!! Clears build-up effortlessly, super hypoallergenic, soothes scalp, no dandruff or dryness, works REALLY well with the amphora conditioner base. Outperforms "high-end" salon shampoos I have used at a fraction of the cost. The bulk option means I don't run out and can reduce plastic waste, ideal! I have allergies to citrus oils which makes it really difficult to buy off-the-shelf products, as these ingredients can be hidden in 'parfum' or 'fragrance', but it's SO hard to find affordable fragrance free options!! If used without added essential oils there is no discernable odor that needs masking, it's fine on its own, perfect if you have sensitivities to oils or fragrances on your skin. I have long, wavy, very fine hair, which usually greases up quickly, but this stuff combined with the conditioner base has definitely slowed the re-greasing rate, while leaving hair soft, smooth and non-frizzy. Will definitely be buying again :-)

Clear Shampoo Base (Natural/SLS Free) NEW

I have been using this base shampoo for years adding essential oils for my own particular needs. It is an excellent product and I have used it with my grandson only days old - highly recommended product - give it a try and create your own shampoo delights :-)

I can't believe I will be the first to review this. You have to try this guys!!!! I have been using shampoo bases from different suppliers over the years but this one surpassed all of the rest so I am buying more. I love experimenting with it by adding different essential oils to suit my mood. It is so soft on my hair and because it is natural no silicone build up on my scalp that causes dandruff
