This is marvellous for pain relief. I use it on my bursitis in my hip. It's like a local anaesthetic!!! Wonderful. Just wish it came in a bigger pot.

It moisturizes, smooth, and absorb very quickly. But after using it my face still oily- I have oily skin.

I had a severe case of Athlete's foot that left me with very damaged skin between my toes - red raw and cracked. Use of high-strength fungal treatment creams made this worse. The skin was not recovering. I had a look through my "herbal armoury" and decided that Comfrey Cream fitted the bill. I put on one application overnight and the results were amazing - the soreness and redness were much reduced by the next morning and after a couple of days new skin has formed and the cracks are healing nicely. Frankly - you can't beat the old-fashioned remedies.

I first got this cream from a lovely fella in Llandudno to help my son who has severe psoriasis. It has worked 10 times better than anything else we've tried. We could see it working almost instantly and stopped the itching that was keeping him up most nights. this cream is now all that we will use on him.
