Description

Our incredibly popular face cream contains rejuvenating Frankincense & Rose Oils, with balancing and cleansing Geranium Oil. This is an excellent face cream as it is exceptionally beneficial for dry & mature skin due to its moisturising and nourishing qualities. Many customers tell us that they prefer this cream to the more expensive solutions available. So you can save money and look and feel great! With regular use it helps smooth fine lines and wrinkles and improves the skin's elasticity. Smells heavenly too!

Contains Beeswax and so not suitable for Vegans.

60ml.

Reviews

This lovely face cream was first bought for me as a birthday present a few years ago. It moisturises well and feels very gentle, not at all heavy on the skin and it smells beautiful. I love the fact that the creams are in these lovely glass jars. My 'sensitive' skin has not reacted to any of the ingredients so I have this on repeat order!

Have always loved this cream but the new lids on the pots feel very cheap and plasticky. Much preferred the 'old' lids

This face cream is absolutely wonderful. I have used it day and night for the past month and my skin feels like heaven! The smell of the rose and the frankincense together is amazing. I have noticed my skin looking more even and plump with a radiant glow. I love the glass jar it is in as it will be easily recyclable or reusable.
