Description

Grapefruit Essential Oil has traditionally been used as an astringent skin conditioner. It makes a great addition to a massage blend if you're looking to detoxify and purify. Its naturally energising and uplifting scent is ideal for helping you stay focused and alert, so it may be particularly helpful to those studying or when you have a large workload to get through.

Its a lovely, fresh and fruity oil that is pleasing to most and blends beautifully with other oils. It is also renowned for its 'feel good' properties and studies have shown it could potentially be a useful oil to diffuse during the winter to help with the seasonal adjustment.

Grapefruit Essential Oil

This is a perfect scent for soap making. Amazingly fresh scented and cannot go wrong. Smells delicious. Would highly recommend!

I have very oily hair and it has made my hair feel less oily and my hair also has more bounce to it.
