Bought this last March, and it's a great product. Smells divine, lathers easily (a few strokes over wet hair) and it's lasted a whole year! Leaves my blonde hair really shiny and smelling lovely. Ordered 2 more bars just now - will they each last a year! Wow, what value. And it's organic and UK made - what's not to love?!

I have naturally blonde long hair which is very fine, with grey starting to come. My hair is generally oily at the scalp but dry at the ends. I found after the first use of this bar my hair was soft, brighter and shining. After using regularly my hair's condition and softness is vastly improved. My hair feels and looks thicker also. Totally recommend for naturally fair hair.

I buy this for my partner who loves it. He has fine hair and it seems to give it more body and it's great to take on holiday when you don't want a big bottle of shampoo. It's also economical - it foams up really well from what seems like barely a touch. I've used one of the other bars and loved it too.
