Description

Melissa (Blend) makes a lovely room spray which has a lovely fragrance and can help to uplift your spirits. It's a lovely calming oil which can help you to relax at bedtime. Melissa (Blend) is also known as "The Female Oil" - diluted in a Carrier Oil it makes a lovely massage oil if suffering from symptoms of PMT. We also sell true Melissa Oil in our Speciality Oils section.

This oil is made up of fractions taken from other oils including Lemongrass and Citronella which gives a close approximation to the composition of the whole oil while avoiding the expense of true Melissa.

Reviews

Melissa (Blend) Essential Oil

Thursday, 14 December 2017

This oil is such a revitalising oil. It blends well with lavender and i use it to diffuse. I read that it helps manage diabetes and hypertension.
