### Description

Perfect for any room at home or in the office. The delicious aroma of Citrus and Lemongrass essential oils will fill the room and because there's no flame or anything to plug in, they are both extremely safe and easy to use. The natural reeds draw the special blends upwards and then disperse the gorgeous scent into the air.

### Reviews

Thursday, 07 July 2016

I was bought a candle from a friend & loved it so thought I would try the reed diffusers. I bought the Citrus Tonic for my osteopathy treatment room. Beautiful subtle smell much nicer than the synthetic smelling ones that you can buy from the supermarkets.....will definitely be repurchasing.
