

Seaweed & Aloe Eye Gel 60ml

Cooling and soothing. A great multipurpose gel. Refreshes the area around the eye - a great make up remover too.

Description

Amphora's Seaweed & Aloe Eye Gel is a natural and gentle eye make-up remover. It also relieves, soothes and cools sore and tired eyes. It's especially great for sensitive eyes. Apply with fingertips and remove using cotton wool. Very gently fragranced, it's great to use after a spell in the sun as it can help soothe mild sunburn thanks to the high content of Seaweed Extracts and Aloe Vera. Suitable for all over body use as an aftersun gel. This is our best selling gel - especially in the Far East where we've sold hundreds of thousands of jars! Paraben free.

60ml.

Vegan and Vegetarian Friendly, Cruelty Free.

Wonderfully cooling and relaxing after a long day ! As well as being incredibly soothing, also very good at taking off makeup.

Always use this to remove my makeup or just as a cooling gel for the undereye area. Since the undereye area is so sensitive, I really recommend this product instead of just any eye cream/gel

I have tried many eye gels in the past some of which have worked to an extent but WOW this is the most wonderful gel which leaves my eyes feeling very soothed and refreshed. It has a fabulous cooling effect. I have only used this twice as only received it yesterday but what a difference already. I must also comment on the first class delivery service. Ordered one day and received the next with a text from the delivery chap to let me know timescale of delivery. I can't wait to try more products. Excellent service from everyone concerned. One very happy customer.
